Purchase order conditions.

- 1) ISO 9001:2008 /AS9120A requirements apply, all items purchased to be supplied with a Certificate of Conformance against third party certification.
- 2) All material to be clearly marked and identified with our purchase order number, material specification, material dimensions and heat/lot number.
- 3) Please advise immediately if you are not able to supply material ordered with manufactures test certificates with full physical and chemical properties. Material received without manufactures test certificates will not be accepted unless prior written authority is given.
- 4) Immediate notification is required upon discovery of nonconforming product that has been or is about to be shipped to AEI Metals Ltd or any changes to product or process that affects quality.
- 5) Unless agreed otherwise in writing material to be supplied to the latest issue of specification.
- 6) All material should be adequately packed to protect from damage in transit.
- 7) AEI Metals Ltd / their customer and or regulatory authority reserve the right of access to facilities involved in the supply of orders placed and all applicable records.
- 8) It is your legal duty to inform us of any hazards in connection with supply of material ordered.
- 9) All items purchased are subject to our standard terms & conditions which can be found on our website at [www.aeimetals.com](http://www.aeimetals.com)
- 10) All material test certificates and certificates of conformance supplied in relation to our purchase order must be retained for a minimum of ten years
